

Task #6

Using the text of your annotated bibliography, copy of the text and create a Wordle (wordle.net); copy and paste it into a document. Below the word cloud, reflect in writing – based on the size of the words that appear – is there evidence that:

- you might be overemphasizing certain words/perspectives in your summaries?
- there are key words/concepts that you feel need to be emphasized in future exploration of your topic?
- you are using extraneous words in your summaries: can you say the same thing more succinctly?
