

PREP #13

- *250 words each*
- *include word count*
- *don't include question/prompt*

13 a. Describe an instance in which an idea popped in your mind while you were doing something besides working on your project. Include what you were doing when the idea came to you and what the idea was.

13 b. How does what you've learned thus far in your research process connect to what you already knew or thought about this topic? How has your work so far extended what you already knew, thought or felt? What challenges, puzzles, questions, or concerns do you have right now about your research project?
