

# Creating a Weekly Study Plan

# Planning Sheet

## Objectives:

- To the best of your ability, with the resources and information you have at your disposal, create a study plan that spans **the next seven days** and covers **at least five classes**. Be sure to include all homework, assigned reading, note-taking, review, and any other steps of study or preparation.
- In your study plan, explicitly incorporate **at least three skills, concepts, or study methods** from either the Note-taking or Memory units of this Inquiry Skills course.

## Planning Questions:

What task, quiz, or assignment do you expect will require the most of your time in the coming week?

---

---

---

How can you effectively break up your preparations for this task into multiple stages or days?

---

---

---

What are three skills or ideas from Inquiry Skills that you can use to effectively prepare?

---

---

---

## Execution:

Neatly create your study plan inside your planner. Turn this sheet into the bin.
