

## Mini-presentation on Methods

- Create a Google Slides, PowerPoint, Prezi, or other aid of your choosing to visually illustrate your intended meaning.
- Include:
  - a title slide,
  - your research question(s),
  - what you think your method(s) will be (1–2 possibilities),
  - information about data collection and data analysis,
  - challenges you think you may have to overcome, and the
  - significance of your study to the field.
- Either present live in class (via Teams) or record your Presentation to [Flipgrid](#) if you'd prefer.
