

Hamlet Prop Assignment

You'll be given a laminated index card in class with the name and a basic description of a specific character from Hamlet written on it; do a simple search online for how that character is typically visually presented on stage (e.g., age, gender, occupation, dress).

I'm asking you to, on the due date, provide a prop or costume piece which accurately befits that specific character and to securely fasten the index card to the prop; the prop should be:

- clean
- fitting and unique
- wearable or easily handheld
- securely fastened to the index card
